

PROJECT BID ADDENDUM #2-March 27, 2020

001-2020

I have attached a picture of the rear Elevator Venting Stack located on the rear gable roof of the courthouse. This stack was constructed in 2005 when the courthouse elevator was first installed.

Given the date of the installation, it may not be necessary to replace the copper on that stack.

PLEASE PROVIDE A SEPERATE BREAKOUT PRICE FOR THE COST OF THE STACK ON THE REAR GABLE.

Teleconference/video conferencing of the April 7, 2020 bid opening will be provided in another Addendum.
